REPORT OF BOARD OF POLICE.

DEPARTMENT OF POLICE, CITY OF BUFFALO.
COMMISSIONER'S OFFICE,
FEBRUARY, 17, 1902.

To the Honorable, the Common Council, City of Buffalo:

GENTLEMEN—In accordance with the duty imposed by the Charter of the City of Buffalo, section 215 of chapter 2 of title VII, the undersigned submits herewith a report upon the condition of the Police Force, for the year ending December 31, 1901, including therein the Annual Reports of the Superintendent of Police, the Surgeon of Police, the Superintendent of the Electrical Bureau, etc.

The whole number of meetings held by this Board during the year was 155, and charges to the number of 92 against members of the Force were heard and disposed of. Five patrolmen were dismissed from the force. One sergeant was reduced to the rank of patrolman. One special patrolman was summarily dismissed. Three patrolmen and one matron were superannuated and retired from active service. Two sergeants and three patrolmen died during the year and twenty-two persons were appointed to various positions.

The whole amount of fines imposed and collected by the Justices to the Police, was $7,630.00, being a decrease in the amount imposed and collected of $783.00 from the receipts of the year 1900, and a decrease of $2,708.00 from the amount collected during the year 1899.

Original from
UNIVERSITY OF ILLINOIS AT
URBANA-CHAMPAIGN

The amount of fees collected by the Sealer of Weights and Measures during the year was $4,265.45, an increase of $35.35 over the collections for the year 1900 and $149.75 less than was collected during the year 1899.

The discipline and efficiency of the force has been maintained through all the exciting times and arduous service of the past year, and the work of the Department has elicited nothing but words of commendation and praise from all fair minded persons, both at home and from abroad.

In our opinion the time has now arrived when a patrol wagon should be placed in service at the Thirteenth Precinct station house, thereby giving needed additional police protection to the northerly section of the city, and we have placed the amount necessary for the installation of this additional service in the amount estimated as necessary to defray the expenses of this Department for the fiscal year ending June 30, 1903, and respectfully request Your Honorable Body to confirm the same.

We join in the recommendation made to this Board by the Superintendent of Police, that a new patrol boat be provided for service in our harbors, and earnestly call your attention to this very important subject.

To the report of the Superintendent of Police, for a detailed statement of the work performed by the Force, and the number of arrests and the disposition of the same, your attention is respectfully invited.

To Your Honorable Body, this Board extends its thanks and hereby expresses its grateful appreciation of the manner in which you have at all times considered our communications and recommendations.

Respectfully submitted,

CHARLES A. RUPP,
JOHN H. COOPER,
Board of Police of the City of Buffalo.

POLICE SUPERINTENDENT'S REPORT.

DEPARTMENT OF POLICE, CITY OF BUFFALO.
SUPERINTENDENT'S OFFICE,
January 23, 1902.

To the Honorable, Board of Police Commissioners:

GENTLEMEN:—I have the honor to forward my Annual Report for the year 1901 and I am pleased to state that the complimentary notices in the Press and the commendation of personal communications to the Superintendent of Police bear testimony to the efficiency and discipline of the Buffalo Police Department.

The year 1901 will be memorable in the history of the City of Buffalo. The Pan-American Exposition in its glorious beauty, and the cowardly assassination of President McKinley has made Buffalo a historical centre, known to every city and hamlet on the face of the Globe.

The Pan-American Exposition attracted millions of strangers, and notwithstanding that upon many occasions the population of our city was nearly doubled, it is most gratifying to report that there was less crime committed in the city during the six months of the Exposition, than during the corresponding time of any other year since this Department was organized. The primary precautions taken to guard against an influx of criminals from all parts of the world, as well as the individual efforts and the personal pride of every member of the force to protect life and property, at the same time respecting the personal liberties of our citizens and visitors, is responsible for the marvelous record of this Department,

not only during the Exposition itself, but after the gates were closed.

Knowing the immense amount of work that would be required of the Force during the Exposition, in protecting the lives and property of citizens and visitors from the depredation of all classes of crooks and thieves whom we knew would centre in Buffalo, and with the idea of not increasing the hours of service of the patrolmen, Your Honorable Body asked the Common Council for an appropriation sufficient to increase the patrol force by 150 men, for seven months. With this addition it was expected that the service of the force in three platoons could be maintained, but the Common Council in their judgment refused your request for 150 patrolmen, but did make an appropriation allowing the employment of 75 extra patrolmen for a period of six months. This addition made it impossible to continue the Force upon three platoons, furnish all the necessary permanent details and provide for emergent details, and therefore upon May 19th, by the order of Your Honorable Board I placed the Force upon an emergent two-platoon system. A schedule was prepared for the tour of duties with the object of utilizing the services of every man, and at the same time arranging for the care, comfort and health of the Force, not over-working the men, and giving all sufficient rest between tours of duty. This schedule was a decided innovation and an improvement upon what is known as the two-platoon system, and was quite satisfactory to the Force. A table explanatory of the schedule will be found in another portion of this report. It was intended to return to the three-platoon system on the first of November, but the two-platoon system was continued over the general election, and on the fifth day of November the Force was returned to the three-platoon system.

The Exposition grounds where wholly within the boundaries of the Thirteenth Precinct, and for the purpose of having at all times a sufficient number of patrolmen within the immediate vicinity of the Exposition, Your Honorable Body erected an annex station for No. 13 in a portion of the Buffalo Railway Co's building

Original from UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN

at the corner of West Amherst street and Elmwood avenue. During the Exposition the Thirteenth Precinct and the Thirteenth Precinct annex were commanded at various times by Captain John Burfeind, Captain Samuel H. Notter and Captain Frank J. Killeen. As the Exposition Company had a most excellent police force, organized, drilled and disciplined under that veteran police officer and most efficient commandant, Col. John Byrne, our force did not enter the grounds officially except upon special occasions when acting as escort for some organization marching into the grounds, and upon the closing night, the 2nd of November when it became necessary for Col. Byrne to call upon our force for assistance, the Pan-American Exposition Co. having reduced its available force to numbers insufficient to cope with the very disorderly element. Col. Byrne and I held a consultation in the afternoon of November 2nd, upon this matter, and I ordered a special detail of 100 men, part in the sixth and part in the thirteenth precincts, upon which Col. Byrne could call if necessary. About 12:45 A. M. Nov. 3d, Col. Byrne sent word to me at the thirteenth precinct police station annex, that he would like to have the Buffalo Police Force go upon the Exposition grounds; I, with a body of sixty men under the command of Captain Killeen and under the supervision of Inspector Martin, entered the Exposition grounds and found a riotous crowd of some 2500 men bent upon destroying everything in sight. It required but a few moments to place our men, and at twenty minutes after 1 o'clock, this turbulent element had been cleared from the grounds and order prevailed.

Immediately upon the closing of the Pan-American Exposition gates No. 13 police station annex was abandoned, and the officers from other stations temporarily attached to No. 13 were returned to their several precincts. On the 15th of November the Pan-American Exposition Co. mustered out the remnant of their police force and called upon this Department to furnish special protection for the buildings, and property upon the grounds. A detail of 21 men was assigned to the thirteenth precinct for this

URBANA-CHAMPAIGN

purpose, and continued until the property of the Exposition Co., through legal proceedings was taken possession of by the Sheriff, when our detail was relieved.

In addition to the large detail of patrolmen made to the thirteenth precinct Your Honorable Board also placed a patrol wagon in the Thirteenth Precinct during the six months of the Pan-American Exposition.

The work of the Detective Bureau, in charge of the veteran police officer, Assistant Superintendent Patrick V. Cusack, and the precinct detectives merit special mention, and it is to their constant and untiring efforts that the city was kept clear of thieves and swindlers during the Exposition.

In addition to the regular Headquarter Detective Force of fifteen officers, I detailed to Assistant Superintendent Cusack thirty officers from the patrol force. In addition we had twenty detectives from the police forces of other cities, and a corps of five special Secret Service men that reported to the Superintendent direct.

I directed that no professional or known thief should be allowed to remain in this city, and issued instructions to arrest all of this class of individuals on sight. One hundred and eighty professional and a large number of small fry thieves were arrested and disposed of; the lesser class being brought before the Morning Justices, convicted and committed to the Penitentiary. The professional men were all brought to Headquarters, measured and photographed by the Bertillon system, arraigned before the Police Justice and disposed of by being committed to the Penitentiary for terms from 30 to 180 days, or ordered out of the city. A list of names and records of these people will be found in another part of this report. Each morning all thieves arrested were brought to the Superintendent's office and exhibited to the Headquarter Detective Force, all of the Detective Sergeants, Special Detail men, and Detective Sergeants from out of town. In each case the history of the thief and his entire pedigree was given to the officers assembled, and

Digitized by Google
Original from
UNIVERSITY OF ILLINOIS AT
URBANA-CHAMPAIGN

if the thief was not held by the Justice, he was ordered out of the city, and escorted to the depot to take the first train. The manner of our disposing of the professional thief was soon communicated to the entire fraternity and was the means of keeping away a great many who, we had been informed, were making their way to Buffalo. While there is no doubt these thieves plied their avocations to a certain degree, there was only one case of professional pickpocketing recorded during the summer, two pickpockets successfully worked the Elmwood avenue cars part of one afternoon and evening and succeeded in getting away with four or five watches. It is thought they were part of a gang that made their headquarters at Niagara Falls and took the risk of running into Buffalo, doing a job and leaving immediately. There were several cases of "Con" games worked, but it was noticeable that none were successful on citizens, rural visitors being the victims, who were in many cases unable to give a reliable description of the thieves. I think that the reason our citizens were immune to being robbed is largely due to the precautionary circulars distributed from these Headquarters early in the season, giving a description of the tricks of thieves and their way of working. A copy of the circular is published with this report, as is also a copy of a circular issued from the Superintendent's office relative to street traffic and its control.

The detailed amount of lost and stolen property for the year will be found in the table in another part of this report, but I call your attention especially to the report of lost and stolen property for the six months of 1900 and 1901.

The number of arrests for the year 1901 was 25,057, being a decrease of 3,209 from the preceding year. I call your attention to the disposition of cases brought before the Morning Justices for the following offenses: There were arrested for intoxication 11,011, discharged 43, sentence suspended upon 9,014. There were arrested on the charge of disorderly conduct 4,566, discharged 232, and sentence suspended upon 2,691.

The force attended 833 fires, and fire alarms were turned on

URBANA-CHAMPAIGN

by 160 officers. The force extinguished 44 fires without sending in an alarm. There were 1704 doors and windows of business places found open, and secured, and the patrol wagons made 12,291 runs. The hourly report from officers was 895,000. The total amount of property stolen was $63,227.29, and of this amount there was recovered $48,841.85. There was property lost to the value of $17,678.83 and there was property found to the value of $11,866.53. During the year 1901 we kept the bicycles lost and stolen separated from the other property, as many bicycles are lost or stolen through carelessness of the owner, I made it a rule that no bicycle reported should be considered stolen unless the owner had taken the precaution to secure it by locking it, or placing it in a place of safety. There were reported bicycles stolen to the value of $920.00 and we recovered bicycles valued at $1,140.00. There were bicycles reported lost to the value of $12,254.50 and bicycles found to the value of $9,521.50. These figures are included in the totals of property stolen and property lost.

President McKinley arrived in Buffalo on a special train over the Lake Shore and Michigan Southern Ry., at 6:00 P. M., Sept. 4th, and the special train went direct to the Exposition grounds. At the railway gate of the Exposition the President and his party were met by the Fourth Brigade National Guard Signal Corps mounted—twenty mounted men of this department and Detective-Sergeants Patrick J. Devine, Lewis W. Henafelt, John J. Geary and Albert Solomon. The Detective Sergeants' instructions were to keep near the President's person during his visit to Buffalo.

The President was escorted through the Exposition grounds to Mr. John G. Milburn's house, which was his Official Residence while the guest of the Pan-American Exposition Co.

Thursday, September 5th, was the President's day at the Pan-American Exposition grounds, and he was escorted to the grounds by the same mounted escort that met him September 4th. The instructions of the mounted detail was to be in

URBANA-CHAMPAIGN

attendance upon the President during his stay within the city, but after the 5th, at the request of Mrs. McKinley, the detail of mounted police was reduced to eight men.

On Friday, September 6th, the President again visited the Exposition grounds, and also made a trip to Niagara Falls, returning to the Exposition in the afternoon of that day for the purpose of holding a public reception in the Temple of Music. At 4:20 P. M., Friday, September 6th, I received a telephone message from Mr. James L. Quackenbush informing me that the President had been shot, and asking that I immediately send detectives and police officers to the Pan-American Exposition. He also told me that the assassin of the President was under arrest. Orders were issued for all available men to proceed at once to the Exposition grounds, and I dispatched some of our Headquarter Detectives. At 4:30 P. M., in company with Inspector John Martin, I drove to the Exposition grounds, and when on Delaware Avenue near Barker street, I met a carriage in which was Detective-Sergeants John J. Geary and Albert Solomon, Capt. Vallely of the Exposition Detective Force, Major Robertson, Deputy Commandant of the Exposition Police Force and the assassin. Immediately I retraced my steps, proceeding to the City Hall in search of the District Attorney.

I found that the District Attorney's office had been apprised of the assassination of the President, and hastening to Police Headquarters I found that the assassin was in the Headquarter prison department, and Mr Haller, Assistant District Attorney, present ready to proceed with an investigation. The prisoner was brought before Assistant District Attorney Haller and myself. He gave his name as Fred Nieman, said that he was born in Detroit, was 28 years old, that he was an anarchist, had killed the President and believed that he had done his duty and was glad of it. Shortly after the examination of the prisoner had begun, Mr. Thomas Penney, District Attorney, came to Headquarters and took charge of the investigation. The prisoner was at all times cool and collected, showing no indication of feelings of remorse

Original from
UNIVERSITY OF ILLINOIS AT
URBANA-CHAMPAIGN

or sorrow for the crime he had committed, repeatedly stating that he had done his duty and wasn't sorry for it and realizing fully the penalty of the crime upon conviction.

In the statement made by the prisoner he said his name was not Fred Nieman, but Leon F. Czolgosz, and gave the history of himself and family.

Naturally the people were greatly excited; the streets were crowded with people threatening to assault Police Headquarters, take the prisoner from custody, and lynch him. As soon as word had been received that the President had been shot, I ordered a heavy detail of patrolmen to report to Police Headquarters and all the streets within two blocks of Police Headquarters, was patroled and carefully guarded. One or two demonstrations were made to break the police lines, and although within the breast of every patrolman was the same feeling that existed with the excited citizens that the assassin should be summarily dealt with, they felt that the majesty of the law must be upheld and that the prisoner and the property of the city would be defended at all hazards. The bulletins issued by the surgeons in charge of the President, that the President was resting comfortably and that there was a possibility of his recovery, quieted the people, and at one o'clock A. M., there were practically no more people on the streets than ordinarily. Day and night we kept a heavy patrol force about Police Headquarters. The favorable reports from time to time of the President's improved condition had a most beneficial effect upon our citizens generally, changing their thoughts from vengeance upon the assassin, to hopeful prayers for the President's recovery, and that justice should be meted out to the prisoner as provided under the constitution.

On the evening of the first examination of the prisoner, Dr. Joseph Fowler, Surgeon of Police, suggested to the District Attorney that an investigation as to Czolgosz' sanity should be immediately begun, and each day thereafter Doctors Fowler, Putnam and Crego examined Czolgosz, and the prison guards in

URBANA-CHAMPAIGN

charge of him carefully watched his conduct and made report, thereon. There was at no time during his confinement that he showed the least indication of insanity or an unbalanced mind. He was always cool, collected, fully realizing the enormity of the crime he had committed.

Although the city was quiet, and the excitement incident upon the first news of the President's assassination had become normal, the precautionary measures for the protection of Police Headquarters and the prisoner were not relaxed, except that the Reserve Force at Station No. 1 was somewhat reduced.

On Thursday, September 12th, the President's condition was not considered favorable, signs of unrest began to appear, and muttered threats against the assassin were heard occasionally. The reserve at Police Station No. 1, was again increased, and the patrol posts in the vicinity of Police Headquarters were doubled.

No charge had been laid against Czolgosz, and by reason of the Erie County Jail undergoing repairs, and the jail prisoners being confined temporarily at the Erie County Penitentiary, Czolgosz was detained at Police Headquarters at the request of the District Attorney, while making his investigation and examining witnesses. The daily bulletins of the Surgeons, in charge of the President's case, continued to be unfavorable; with threatened assaults upon the Police Headquarters building for the purpose of obtaining possession of the prisoner, that he might be summarily dealt with by the people, led the Police Commissioners to question the advisability of retaining him at Headquarters longer, not that they had any fear that any mob could successfully attack the building and release the prisoner, they knowing that we had a sufficient number of men to successfully cope and defeat any mob that should make the attempt, but knowing too, that any attempt would result disastrously to the attacking party, and possible many innocent persons would suffer, it was decided on consultation with the District Attorney to remove the prisoner. This was done on Friday morning, September 13th, at eleven o'clock and he was taken to the Erie County Penitentiary, by

Assistant Superintendent, Patrick V. Cusack, and placed in charge of Mr. Alexander Sloan, Keeper of the Penitentiary, under an arrangement previously made between Mr. Sloan and District Attorney Thomas Penney.

The ridiculous and sensational stories that he was smuggled from Police Headquarters in the disguise of a police officer, and taken away in a patrol wagon, were untrue in every particular. As has been stated above, he was removed from Headquarters in daylight, at eleven o'clock in the morning. Mr. Cusack did not even place handcuffs upon the prisoner. There was no change in his garments from those worn when he was brought to Headquarters, with the exception of a clean shirt and a hat that was provided for him, his hat having been lost in the Temple of Music.

His removal from Police Headquarters, and knowledge of where he had been taken was strictly guarded, his removal being known only to Police Commissioner Rupp, the Superintendent and Officer William Jordan.

At the Penitentiary he was placed in the women's dungeon and no one in the Penitentiary, with the exception of Mr. Sloan and one or two trusted assistants, knew who was the prisoner confined in that dungeon. Czolgosz was detained at the Penitentiary until after the death of the President, and the remains had been removed from Buffalo, and until five o'clock on Monday afternoon, when he was brought to the Erie County Jail, and from thence conducted through the underground passage to the City and County hall, and arraigned before County Judge Emery, Czolgosz having been indicted Monday morning, September 16th, by the Grand Jury, then in session, charged with murder in the first degree. Czolgosz was detained at the Erie County Jail until his conviction and removal to Auburn State Prison.

In the removal of the prisoner from Police Headquarters to the Penitentiary there was a strange coincidence in the fact that the coach driver who had brought the prisoner from the Exposition grounds to Police Headquarters, also drove the coach that removed him to the Penitentiary.

URBANA-CHAMPAIGN

The stories that Czolgosz while confined at Police Headquarters was fed sumptuously every day, that he was allowed to receive flowers, fruits and delicacies, and that newspaper reporters were allowed to interview him, are positively untrue. Czolgosz received the same food provided for other prisoners, except that upon direction of the police surgeon after two or three days confinement his diet was reduced. His breakfast consisted of potato, bread and butter and coffee His dinner consisted of one kind of meat, one vegetable, bread and butter and coffee, and his supper the same as breakfast. Of this food he had a sufficient supply, and usually ate more than an ordinary prisoner, he having a very keen appetite. He was not provided with cigars, although having been a smoker, the surgeon directed that he be permitted to use a limited amount of tobacco daily. The treatment given Czolgosz was no different from that received by other prisoners, except that he was in solitary confinement, guarded day and night.

On Friday night, September 13th, when the unfavorable reports of the President's condition was announced, and all hope of his recovery abandoned, the reserves at No. 1 station house were doubled, and all streets leading to Police Headquarters heavily patrolled. General Samuel M. Welch, Jr., commanding the 4th Brigade National Guard, placed in the Armory of the 65th Regiment two companies of the 65th Regiment, and in the 74th Regiment Armory two companies of the 74th Regiment, to protect the State property in case of an outbreak. Around all Bulletin Boards reporting the President's condition, large crowds assembled, hoping the next report would be favorable to the President's recovery. At 11.35 P.M., when the last Bulletin was posted announcing the President's death, the crowds quietly dispersed. Vengeance was turned to sorrow; it was as if death had entered every household. Sympathy for the bereaved widow, expressions of love and honor for the martyred President were upon every lip. The pall had fallen, obscuring the tragedy and its author—Czolgosz was forgotten.

The President after being shot was removed to the Emergency

Hospital on the Exposition grounds, and then to the residence of John G. Milburn A detail of Police was kept at the Milburn house. The streets for one block in each direction were roped off and no vehicles allowed to approach the house. In addition to the police detail there was a detachment from the 14th U. S. Infantry.

It was necessary to maintain a Police detail at the Milburn house from the time the President's remains were removed until the 1st of December. From daylight until dark, every day, the camera and kodak fiends were out in force, and the souvenir hunter was ready to destroy the house. Pebbles from the driveway were picked up, leaves that dropped from the trees taken, and one souvenir hunter with more nerve than the others appeared with a mallet and chisel and requested the officer on duty that he be allowed to remove a few bricks from the building. It is unnecessary to say this request was denied, and nothing was destroyed either upon the grounds or about the house.

On Sunday morning, September 15th, funeral services were held at the Milburn house, and the remains of the President were escorted to the City Hall. As the remains were removed from the hearse a severe rainstorm with heavy wind occurred. The streets North and South of the City Hall, beyond the lines established by the Police, and the streets running East and West were a mass of people awaiting an opportunity to view the remains of the late President. At 1.20 P. M. the lines were opened to permit the people to pass into the City Hall and view the remains. The people were formed in two ranks, entering the City Hall from Franklin Street, passing on either side of the casket and through the City Hall to Delaware Avenue. The doors of the City Hall were closed at 11 P.M., and it was estimated that between ninety and one hundred thousand people had passed the remains of the President.

Although the crowd of people within the vicinity of the City Hall during the ten hours was probably larger than ever gathered in Buffalo within the same area, and the line of people at times

URBANA-CHAMPAIGN

was fully one mile in length, there was no unseemly crowding or noisy demonstration. The crowd at all times was under perfect control of the Police officers.

At seven o'clock Monday morning, Sept. 16th, the remains of President McKinley, under military and police escort, were placed upon a Pennsylvania R. R. Special, to be taken to Washington, D. C.

Czolgosz was placed on trial at 10 A.M., Monday, September 23rd. The Jury was sworn in before three o'clock P. M. The prosecution was most ably conducted by the Hon Thomas Penney, District Attorney for Erie County, and the defence was in the able hands of the Hon. Robert C. Titus and the Hon. Loren L. Lewis, former Justices, of the Supreme Court, State of New York.

On Tuesday afternoon, September 24th, the case was submitted to the Jury, the Jury retired at 3:51, and at 4:23 returned a verdict of murder in the first degree.

President William McKinley was assassinated in the Temple of Music at the Pan-American Exposition grounds at 4:10 P.M., September 6th; he died at 2.15 A.M., September 14th, and was buried at 3.30 P.M. September 19th, at Canton, Ohio.

Leon F. Czolgosz, his assasssin, was indicted on Monday, September 16th. The trial was held in part III of the Criminal Term, Supreme Court, City and County Hall, September 23–24, the Hon. Truman C. White, Justice of the Supreme Court presiding, and he was electrocuted in the State prison at Auburn, N. Y., at 7.12 A.M., Tuesday, October 29th.

I herewith append a letter from the Committee on Ceremonies during President McKinley's visit to the Pan-American Exposition.

BUFFALO, N. Y., September 20, 1901.

GENERAL WILLIAM S. BULL,
Superintendent of Police, Buffalo, N. Y.

DEAR SIR—During the ceremonies of the late President, on September 15th and 16th, 1901, the undersigned had an excellent

opportunity to observe the work of the Police under circumstances calculated to try the discipline and good judgment of a majority of the members of the Department.

We have no hesitation in saying that so great a crowd was never better handled.

We wish to thank you for the admirable and judicious arrangements planned by you, and to commend the excellent spirit in which the work was carried out by the officers and men of the Department. It certainly showed a high state of discipline and efficiency.

Every citizen of this city has just reason to be proud of a Department capable of such long continued and sustained effort without the occurrence of a single mishap, or accident of any kind.

Yours very truly,

THOMAS W. SYMONS
EDWARD R. RICE
LOUIS L. BABCOCK
JAMES L. QUACKENBUSH
LAWRENCE D. RUMSEY
GEORGE S. METCALFE
Committee on Ceremonies.

The following address issued by Your Honorable Board to the Force was duly appreciated by every member of the Force.

DEPARTMENT OF POLICE OF THE CITY OF BUFFALO,
COMMISSIONERS' OFFICE,
BUFFALO, NOVEMBER 4, 1901.

To the Police Force:—

The Pan-American Exposition which created the emergency causing the force to be placed upon the two-platoon system has

Generated at Cornell University through HathiTrust on 2026-08-21 13:48 GMT

URBANA-CHAMPAIGN

closed its gates, and the Superintendent has issued orders returning the Force to the three-platoon system on Wednesday morning, the 6th inst.

Although the duty performed during the past six months was nominally under the two-platoon system, the Superintendent, when making the assignments, bore in mind, as he always does, the care and comfort of the force. Knowing that it was necessary to preserve the health and strength of the men in order to meet any extraordinary call to continuous service, he prepared a schedule for patrol and reserve duty that would require the fewest number of hours possible for efficient police work.

The Board of Police congratulates and hereby thanks Superintendent William S. Bull for unremitting attention to the duties of his office, which have been most arduous, for the signal ability displayed in his direction of the work of the force, and the high standard of excellence maintained therein, and the magnificent service so efficiently given the city.

The unqualified commendations of the Board is extended to the rank and file for the efficient, excellent, prompt and courteous manner in which they have performed their many arduous duties during the Pan-American Exposition period, and it is with pride and pleasure the Board states that at no time has a serious complaint of inefficient or discourteous conduct on the part of any officer been made. On the contrary, words of praise were received from all quarters. Many of the prominent visitors, citizens, public officers of the Government, of the States and Cities, personally complimented the Department for the efficiency, general conduct and appearance of the force.

During the trying times from the date the President was shot, September 6th, until the morning of September 16th, when his honored remains were removed from the City, representatives of the leading journals of the Union were in Buffalo in large numbers. These men who in the interest of their papers are at all events of national importance, and are constantly in contact with the police of all great cities, and whose training and business is

URBANA-CHAMPAIGN

to report facts as they are, called personally at these headquarters and announced that in all their wide experience, in courtesy, efficiency and gentlemanly conduct, the Buffalo policemen were far ahead of those of any other police department. As one representative of a prominent New York paper put it: "It will be a title of honor for an officer to be able to say 'I was a member of the Buffalo City Police Force during the Pan-American Exposition.'" The local press also, on many occasions, commended your work, and as you all know, home praise is never given if not actually deserved. We are proud of you. We are proud of the record that you have so honorably and nobly won. In the many trying and perplexing situations and problems that have confronted you in the past you have never been found wanting, but were always equal to the occasion.

CONRAD DIEHL,
CHARLES A. RUPP,
JOHN H. COOPER,
Board of Police of the City of Buffalo.

The following are the circulars and statistics referred to in the foregoing in connection with the Police arrangements and work during the Pan-American Exposition.

DEPARTMENT OF POLICE, SUPERINTENDENT'S OFFICE.

BUFFALO, N. Y., April 20, 1901.

To the Public:

During the Pan-American Exposition, Buffalo will be visited by hordes of adventurers, thieves, both male and female, housebreakers, hotel and boarding house sneak thieves, residence sneaks, veranda climbers, shoplifters, pickpockets, confidence men and bunco workers, fakirs and sure-thing men, all expert, eager, and alert to work upon the unsuspecting.

The Police Department will use every effort to arrest all suspicious persons and known thieves before they have an opportunity to ply their vocations, and either convict them or drive them from the city. Although our detectives know a large number of thieves and crooked people in

Original from UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN

the country, many unknown crooks will visit Buffalo during the coming summer, and the public can be of great assistance to the Police Department by being constantly upon guard against them. It is requested that all cases of actual theft or swindle, or attempt at the same, with all particulars, and an accurate description of the suspect be made immediately to Police Headquarters, the nearest Police Station, or a police officer upon the street. No incident will be too trivial to report, and all will receive prompt attention and investigation. Often a trivial case leads to the detection, arrest and conviction of more serious crimes.

Sneak-thieves outnumber all classes of crooks by a large majority; there is the bank-sneak, the jewelry store sneak, who is generally a penny-weighter, safe sneaks and till-tappers, and the house sneak thief. Each in a measure follows his particular line, but being a very industrious set, they will go out of their class to do a job, should occasion offer, and they are always on the lookout for an opportunity.

To the householder the house sneak thief is of the most interest; he is on the watch day and night, and only requires a few minutes' uninterrupted work to clean a flat, or suite of rooms, or an entire house of all valuables in sight. He knows the coming and going of the inmates of the house, which rooms are occupied and unoccupied, but usually before attempting robbery, he rings the bell, and if answered asks for an unknown person. If the ring is not answered he will immediately proceed to effect an entrance with a duplicate key or otherwise. Very few buildings are burglar proof. No house should be left without an occupant, and even then care should be taken that all jewelry and valuables are secured. A class of people that will annoy householders are persons representing themselves inspectors of telephone, gas, water, health, etc. Do not allow such persons within your house unless they can show proper credentials which all legitimate inspectors carry, and even then do not allow these people to go through your house unless accompanied by some member of the family or a servant. Under no circumstances pay any attention to solicitors of any kind, agents or peddlers. Close the door against them. These people will enter an unfastened door without knocking, and should they find no one present will quietly and quickly appropriate everything in sight.

It is safe to have every door fastened with a door chain. Be very careful when occupying the front of your house and veranda, that the rear part of the house is carefully secured. Do not leave the rear windows open either on the first or second floor to the full extent, and when left partly open see that they are fastened so that they cannot be raised or lowered sufficiently to permit a person's body to enter through the window. Be careful when there is a parade or unusual commotion in the street that the inmates of the house do not flock to the front of the house, leaving the rear unsecured; that is the time that the sneaks will surely gain an entrance and rob you, and it will be some time before you discover that your goods have been removed.

URBANA-CHAMPAIGN

Be very careful of agents soliciting orders for some particular brand of goods of which they will exhibit a sample, ask for an order, require a small cash payment and never return to deliver the goods.

The safe sneak and till-tapper generally devotes his time and talents to the retail business places where there is only the proprietor and one or two clerks in attendance. They travel in mobs of three usually, part of them engaging the attention of the proprietor or clerks, while another one proceeds to steal. Do not allow yourself or your clerks to be attracted to the front part of your store by any unusual occurrence in the street while anyone is within. Do not allow your clerks or yourself to be taken to the rear of the store, leaving the front part of your store without protection. Be very careful about strangers rushing into your store bare-headed, asking to have a large bill changed. Be constantly on guard against the person with the bogus check. These people have their work down fine, and if you are not constantly on guard, they will catch the smartest. Your only safe way is never to take a check in payment for goods from a stranger.

Male and female pickpockets and confidence men will be present in large numbers. Pickpockets thrive where crowds congregate, and can be expected at all times in stores, street cars, or on the street where any commotion or attraction will gather a crowd. They work in mobs of from two to five, generally three. They will surround one, and in an apparently unintentional manner, jostle and push, step on the feet, push the hat over the eyes, and do many other things, all accidentally, of course, and good naturedly, but for the purpose of robbing their victim.

Women pickpockets are most dangerous, and generally confine their operations to their own sex Humble in attire, unassuming, they slip into crowds of women before stores and show windows, places of amusement, churches, etc., and work without notice or particular attention.

The expert male pickpocket who only seeks large plunder, such as valuable watches, diamond studs, etc., is dextrous and cautious. He usually carries a light overcoat or duster over the left arm. In the push, this is raised in front of the victim, high enough to cover the operation of the hand while abstracting the watch or stud. In the street cars a newspaper is often used for this purpose.

Expert pickpockets also frequent banks and the vicinity of banks, observe the customers, and if possible, ascertain if they are receiving or depositing money, locate where the money is placed on the person, and then follow until opportunity offers when the money can be stolen.

In the street, at the theatres, churches or at any place where a crowd is expected, wear as little jewelry as possible, and carry only a sufficient amount of money for your immediate wants.

If your attention is called to the fact that you have dropped your handkerchief, your purse, your umbrella or any portion of your wearing apparel, let the person who called your attention to it be polite enough

Original from UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN

to pick the article up and return it to you. Do not stoop for it yourself—you will probably be robbed before you recover an erect position.

The most expert male pickpockets now are usually well groomed and a gentleman in appearance; in the evening some of them will appear in evening dress. They work the street and trolley cars principally.

Be careful of the confidence man who meets you upon the street, who claims to have lived in Buffalo many years ago, has been away, finds a great many changes on his return, says your face is familiar, but he cannot call you by name, or calls you by another name and you correct him by giving him your own. He will chat pleasantly about the improvements in Buffalo, the great exposition, leave you at the corner, and in a short time you will meet his pal, who will call you by name, knows your pedigree, and proceeds to work you with his particular scheme.

Do not be curious to learn what every street fakir has for sale.

Do not mix in any street quarrel.

Do not be too sure that a crook cannot do you.

Do not make acquaintance with strangers through their advances.

Keep your hand on your pocketbook, if you don't someone else may.

Assist the police in preserving the peace and good order of the city, and in protecting our Pan-American visitors by protecting yourselves.

WILLIAM S. BULL,
Superintendent.

DEPARTMENT OF POLICE, SUPERINTENDENT'S OFFICE.

BUFFALO, N. Y., April 20, 1901.

DEAR SIR:—

I hand you herewith Section 23, Chapter 4, of the Ordinances of the City, regulating the use of bicycles—prohibiting fast driving of horses upon the street—regulating the use of vehicles and loading and unloading thereof, within the City of Buffalo.

This summer the increase in trolley cars, omnibusses, carettes, and many other vehicles for the transportation of passengers, will make Main street one of the busiest in the country, and every effort must be made to facilitate rapid transit.

The Department of Police has the supervision and control of traffic in all roadways in the City, and during the Pan-American Exposition it will be more necessary than ever to enforce all of the provisions of the street ordinances. You can be of material assistance to the Police Department in enforcing the ordinances by instructing your employees in the provisions of Section 23, herein referred to, and requiring of them a strict observance of the same.

Call their particular attention to the speed that vehicles are allowed

URBANA-CHAMPAIGN

to maintain—keeping to the right of the road and as near the curb as practicable, leaving the center of the street free; when passing vehicles in the same direction, pass on the left; in turning corners to the left, they shall pass the center of the street intersection upon their own left, and in turning corners to the right, shall turn as near the curb as practicable.

Heavy wagons, such as ice, coal and freight, moving vans and barrel rack wagons, should be kept off Main street as much as possible; in fact, they should not be permitted on Main street except for the delivery of goods. If you are engaged in the coal business or the delivery of freight, or other heavy traffic, and will consider the matter, I believe it will be apparent that it is for your interest to keep your wagons off Main street. A congested street retards the despatch with which you expect drivers to deliver their loads, to say nothing of other reasons that naturally arise, causing them to loiter.

No vehicles will be permitted to turn in the center of a block; all will be required to turn at the intersection of streets; nor will they be permitted to cross from one side to the other side of the street within blocks. When taking up or discharging freight or passengers, vehicles will be faced in the direction of traffic, on the right of the roadway. So far as practicable, freight, coal and ice wagons, and other heavy traffic will be unloaded from the side of, and not from the end of the wagon, and will draw in close to the curb.

Vehicles will not be permitted to stand two or more abreast in any roadway; the practice of carriages, coaches and vehicles for the transportation of passengers to and from theatres, balls, parties, or other functions, standing abreast, must be discontinued. They will be permitted to stand in single file only, faced in the direction of traffic, next, and close to the curb, unless otherwise directed by a police officer.

I suggest that drivers of all vehicles always carry a whip in the hand for the purpose of communicating to vehicles in the rear what direction the leading vehicle is going to take. When the vehicle is going to stop, the driver to raise the arm and whip perpendicularly; if going to turn to the right, drop the tip of the whip to the right; if going to turn to the left, drop the tip of the whip to the left. Drivers of automobiles, locomobiles, and vehicles of like character to make signals with the arm, raising the right arm perpendicularly to stop, extending it to the right if intending to turn to the right, and extending the left arm to the left if intending to turn to the left.

Bicycle riders should be particular to sound their bells when about to pass vehicles in the same direction, and should always pass the vehicle upon the left, never to the right. The practice of passing, by crowding between vehicles and the curb, is fraught with great danger, and always at the risk of the bicycle rider.

WILLIAM S. BULL,
Superintendent.

Section 23 of Chapter IV. of the Ordinances of the City, regulating fast driving of horses upon its streets, the use of vehicles, the loading and unloading thereof and the use of the bicycle:

Sect. 23.—1, No person shall ride any bicycle, tricycle or any other vehicle, or drive or ride any horse, or any vehicle drawn by a horse or horses, or otherwise propelled, in any street, lane or alley of the City outside the district mentioned in subdivision four of this section, at a faster rate than eight miles an hour; nor shall any person ride any bicycle, tricycle, or any other vehicle, or drive or ride any horse, or any vehicle drawn by a horse or horses, or otherwise propelled, around any corner or intersection of any street, lane or alley of the City at a faster rate than five miles an hour.

2.—No person shall ride any bicycle, tricycle or similar vehicle in any street, lane or alley of the City, unless the same be provided with a bell which may be heard one hundred feet distant, by which to give an alarm when about to meet or pass pedestrians, and when about to meet or pass other vehicles.

3.—No person riding any bicycle, tricycle or similar vehicle in any street, lane or alley of the City shall coast or proceed thereon by inertia or momentum with the feet off the pedals. No person shall perform any trick or fancy riding uopn any street, lane or alley within the City.

4.—No person shall ride any bicycle, tricycle or any other vehicle, or drive or ride any horse or any vehicle drawn by a horse or horses, or otherwise propelled, upon Main street, south of Chippewa street, at a faster rate than five miles an hour.

5.—No person shall leave any wagon, carriage or other vehicle, or horse or animal hitched or standing, or allow any wagon, carriage, horse, animal or vehicle to remain standing, except as specified in subdivision six, for the unloading thereof, and in Section 15, of Chapter VI of the Ordinances of the City, upon Main street, between Court and Seneca streets. And no wagon, carriage or other vehicle, or horse or animal shall be left hitched or standing upon Main street between Seneca and Exchange streets for a longer period than fifteen minutes.

6 —No person riding, driving or having charge of any horse or vehicle shall stop such horse or vehicle on any roadway, sidewalk or crosswalk of the City or intersection thereof in such manner as to hinder or obstruct traffic thereon, except when necessary to load or unload therefrom, and then in such case only for such time as shall be actually necessary, and in no case to exceed ten minutes, and no person shall allow any such vehicle to be placed or remain unnecessarily crosswise of any roadway of the City, nor upon any sidewalk or crosswalk, at any time for any purpose, without leaving sufficient passageway for pedestrians thereon. The provisions of this section shall not apply to such persons and places as are specified in Section 15 of Chapter VI thereof.

URBANA-CHAMPAIGN

7.—No person shall ride any bicycle, tricycle or other vehicle upon the sidewalks within the limits of the City. Velocipedes and other similar machines ridden by children under the age of ten years are exempted from the provisions of this subdivision, except on such streets or portions of streets as may be from time to time specified and designated by the Superintendent of Police as busy streets.

8.—All persons riding or driving any horse or any vehicle of any kind upon the roadways of the City shall keep to the right and as near to the curb as practicable and shall pass vehicles on the left of the vehicle passed. In turning corners to the left, they shall pass the center of the street intersection upon their own left, and in turning corners to the right shall turn as near to the curb as practicable.

9.—The Police Department shall have supervision and control of traffic in all roadways of the City and at entertainments and gatherings, and all persons riding or driving any vehicle or animal shall obey the reasonable orders of the officers of such department, and the Superintendent of Police in his discretion may upon any special occasion grant permits to any person or persons to ride or drive during a specified time upon specified portions of the streets of the City at any rate of speed, and annex such other reasonable conditions to such permits as he shall deem proper.

10.—Nothing in this section contained shall be construed as to interfere with or affect any of the vehicles of the United States postal service, or fire department, police department, public hospitals or any of the vehicles of the street railway companies of the City.

Sec. 28.—Every person who shall do any of the acts prohibited by, or shall violate any of the provisions of the sections of this chapter, number from twenty-one to twenty-seven, both inclusive, shall be punished by a fine not exceeding the sum of five dollars for each and every offence; and in case of the non-payment of any fine imposed for any of the violations of said sections relating to bicycles, tricycles and similar vehicles by imprisonment in the county jail, not exceeding one day for each dollar of such fine, in the discretion of the court or magistrate.

Sec. 32.—Every owner, driver, or other person leading, riding or driving, any horse or horses or other animal or animals, along, or across any of the public streets, alleys, squares, or grounds, or side or crosswalks in the City of Buffalo, and whether such horse or horses, or other animal or animals shall be attached to any vehicle or not, shall, when requested or notified by any police officer so to do, stop such horse, horses or other animal or animals, and any vehicle that may be drawn thereby, for the purpose of allowing any person or persons on foot, to cross or pass over any side or crosswalk, in any street, alley, square or public ground, or regular crossing place for persons on foot, in safety;

and every driver or motorman in charge of a street car or cars, shall, when requested or notified by any police officer so to do, stop such car or cars for the purpose of allowing any person or persons on foot to cross or pass over any side or crosswalk, or any regular crossing place for persons on foot in any alley, street, square or public ground in said city, in safety. Every person violating the provisions of this section, shall, upon conviction, forfeit and pay a penalty of not less than five nor more than one hundred dollars for each and every such violation.

INSTRUCTIONS FOR VEHICLES AT PLACES OF ENTERTAINMENT.

Vehicles taking up or discharging passengers at the Twentieth Century Club will approach from the South. While waiting for passengers they will form on the East and West side of Delaware avenue.

Vehicles taking up or discharging passengers at the Saturn Club will approach from the West on Edward street, and South on Delaware avenue, and while waiting for passengers will form on the East side of Delaware avenue, South of Edward, and on the West side of Delaware avenue, north of Edward.

Vehicles taking up or discharging passengers at the Buffalo Club will approach from the North on Delaware avenue, and East on Trinity place, and while waiting for passengers will form on the West side of Delaware avenue, north of Trinity, and on the East side of Delaware avenue, north of Tupper street.

Vehicles taking up or discharging passengers at the Teck Theatre will approach from the North, and while waiting for passengers will form on the West side of Main street and South side of Edward street, and on the East side of Main street.

Vehicles taking up and discharging passengers at the Star Theatre will approach from the West, and those waiting for passengers will form in one line next the curb, faced East from Franklin street to entrance of theatre, two lines in center of Genesee street, the line of carriages on the north to face West, and the line on the south to face East, with space between curbs and coaches to allow vehicles to pass in either direction.

Vehicles taking up and discharging passengers at the Lyceum Theatre will approach from the South, and while waiting for passengers will form on the East side of Washington street, north of Broadway, and North side of Broadway, East of Washington.

Vehicles taking up and discharging passengers at the Lafayette Theatre will approach from the East, and while waiting for passengers will form on the North side of Broadway, West of Washington, and on the West side of Washington street, North of Broadway.

Vehicles taking up and discharging passengers at the Academy of Music will approach from the South, and while waiting for passengers will form on the East side of Main street, above Seneca, and on the West side of Main street, between Swan and Seneca.

Vehicles taking up and discharging passengers at Shea's Garden Theatre will approach from the North, and while waiting for passengers will form on the West side of Pearl street between Niagara and the theatre, and on the East side of Pearl street, between Church and Niagara.

Vehicles taking up and discharging passengers at the Iroquois Hotel, Main street entrance, will approach from the South. Eagle street entrance, approach from the West.

Vehicle taking up or discharging passengers at the New Tift House will approach from the South.

Vehicles taking up and discharging passengers at the Hotel Genesee will approach from the East.

Vehicles taking up and discharging passengers at Convention Hall will approach from the East.

Vehicles taking up and discharging passengers at the Chapter House will approach from the direction of Delaware Avenue.

Vehicles taking up and discharging passengers at the 74th Armory will approach from the East on Connecticut street.

DEPARTMENT OF POLICE, CITY OF BUFFALO,
SUPERINTENDENT'S OFFICE.

BUFFALO, May 18, 1901.

GENERAL ORDER NO. 52.

1. At a meeting of the Board of Police, held May 18, 1901, the following resolution was adopted:

"WHEREAS, in the discretion of the Board of Police, we declare an emergency has arisen and public demands are such as to require the aid and assistance of all three platoons of the Police Force, therefore be it

RESOLVED, That the Superintendent of Police be and he is hereby directed to place the entire police force on duty until further orders, in such manner as in his judgment and discretion he may deem proper, for the preservation of the peace and good order of the City, and for the protection of life and property."

2. The formal dedication and opening of the Pan-American Exposition on the 20th inst., which is going to attract large numbers of people to our City, creates an emergency requiring the necessity of having the entire police force on duty during the continuance of said exposition,

UNIVERSITY OF ILLINOIS AT
URBANA-CHAMPAIGN

it is therefore ordered in compliance with the resolution hereinabove set forth, that the entire force will report for duty at 6 o'clock P. M., Sunday, May 19th, and will continue on duty until further orders.

3. The force will be worked in two platoons and in accordance with the schedule furnished herewith.

It will be necessary to see that all posts are covered from 6 o'clock at night until 6 o'clock in the morning, and to insure this object, commanding officers will select from their command a sufficient number of men to cover the posts and wagon details by each platoon.

The Posts and Wagon Details will be as follows:

No.	1—25	Posts	and	5	Wagon	Men	.....	55 men
"	2—14	"	.....					29 "
"	3—21	"	.....					46 "
"	4—14	"	and	3	Wagon	Men	.....	31 "
"	5—14	"	"	3	"	"	.....	31 "
"	6—21	"	"	3	"	"	.....	45 "
"	7—14	"	"	3	"	"	.....	31 "
"	8—17	"	"	3	"	"	.....	37 "
"	9—12	"	"	3	"	"	.....	27 "
"	10—14	"	.....					29 "
"	11— 8	"	.....					17 "
"	12—13	"	.....					27 "
"	13— 9	"	and	3	Wagon	Men	.....	22 "

The Wagon Detail will be as follows:

No. 1.....5 men.
Nos. 4 5, 6, 7, 8, 9 and 13.....3 men each.

This will constitute the patrol force of the Precinct, and will be kept intact as far as possible. The number of men in each Precinct over those provided for above will be used for emergency and any special details that may arise. From the excess patrolmen of the force Nos. 1 and 3 will cover Main street, places of amusement, railway and steamboat landings; No. 2 will cover the railway stations; No. 5 the steamboat landings, and Nos. 6 and 13 the streets, property and all railway terminals in the immediate vicinity of the Exposition Grounds.

4. With the limited number of men to perform the arduous and difficult task assigned to the Buffalo Police Department for the next six months, it will require the energy and intelligence of every man on the force.

5. Commanding officers will be particular to instruct their commands in all the laws and ordinances with which they will have to deal. Instruct them to be courteous and civil to all persons who may ask them questions, and inform them as to the most practicable and direct route to reach the Exposition grounds, the different railway stations, steamboat landings and hotels, etc. These points commanding officers must

UNIVERSITY OF ILLINOIS AT
URBANA-CHAMPAIGN

impress upon every man, because emergencies will arise when the outside stations will be called upon to make special details to work in the heart of the City and about the Exposition grounds, so every man must be thoroughly posted in all of his duties.

6. The men on Main street must be particular regarding street traffic, they must not permit that street to become congested. Carefully read and become conversant with the circular issued from the Superintendent's office, dated April 20, including Section 23 with its subdivisions, and Section 32 of the City Ordinances. They will ascertain from drivers of all heavily laden wagons on Main street their destination, and divert them east and west unless they are to deliver goods within the immediate vicinity of where they are seen. Wagons such as freight, coal, moving vans, etc., without loads, you will divert from Main street wherever they are found; direct them to take parallel streets to the east and west of Main street.

7. Instruct your men to be particular to enquire from all Peddlers, Showmen and Exhibitors in all parts of the City if they have a license to carry on their business. Any person or persons peddling or carrying on shows or exhibitions without license, will be admonished once to obtain a license—the second time arrest. Also investigate all advertising wagons, allow none on street who cannot show a permit issued by the Superintendent of Police. Do not allow any barkers in front of any shows or exhibitions or any runners or solicitors about the railway or steamboat landings. The small hotels and restaurants about the depots must not be permitted to have persons on the sidewalk soliciting patrons; hackmen must not be permitted to solicit patronage. No licenses have been granted nor will licenses be granted to any hotel, boarding house or rooming house runners.

8. Officers on duty at Railway Stations and Steamboat Landings will be asked for directions to hotels, boarding houses, rooming houses, etc. Direct all such inquirers to the Business Men's Bureau of Information, "Old Bank of Commerce Building," 213 and 215 Main street; The Pan-American Bureau of Information, Ellicott Square, and The Joint Agency, 50 Exchange street.

9. About the railway stations and steamboat landing prevent crowds from congesting the streets and docks. An attempt will be made by boarding, rooming-house and hotel-keepers to have persons about railway and steamboat landings to solicit patronage; keep those people off the street, and also instruct the patrolmen on duty in the vicinity of all railway stations and steamboat landings to be on the alert and arrest any person they find soliciting for boarding houses, hotels or rooming houses.

10. See that all places of entertainment are properly covered, and do not allow crowds to gather about the entrance. On the business

Digitized by Google
Original from UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN

thoroughfares keep the crowds moving; do not allow persons to congregate upon the curbstone or against the buildings.

11. Uniforms will be worn at all times when appearing upon the streets—going to and returning from meals, going to or leaving the station houses, except on the long day off, or when directed by competent authority to wear plain clothes. The uniform coat will be buttoned at all times. The restrictions of the Buffalo Railway Co. permitting but two men to ride upon a car have been raised, and any number will be permitted to ride when in uniform; but as the cars will run close together, officers will use judgment in taking advantage of this privilege and not too many of them get upon the same car to the exclusion of citizens. Officers will also be careful not to interfere or express an opinion when differences arise between railway employees and the passengers, unless called upon.

12. Commanding officers will send a written report to the Superintendent's office Sunday, May the 19th, showing the number of men in each Precinct over and above those necessary for patrol and wagon duty, as hereinabove stated.

By order of

WM. S. BULL,
Superintendent.

Matrons.

In the Department we have three Matrons, assigned to Precincts 1-3 and 8. The Matrons are on duty constantly without relief from duty except for meals and their monthly vacation. Although they do not have female prisoners to look after all of the time, it is necessary they should be at the station house to receive and care for female prisoners in case there should be any brought in.

The hours of duty required from these faithful, worthy and necessary employees of this Department are too long, and I think we should not require so many hours of work in excess of other members of this Department, and I respectfully recommend that an additional Matron for each of the three station houses be employed, and their hours reduced to 12, working day and night, alternating weekly, or that a central prison for females should be erected and in charge of the present Matrons, working three tours of duty of eight hours each, and that an additional Matron be appointed to look after the female prisoners brought to Police Headquarters.

Harbor Police.

The work of the Harbor Police and its efficiency has been fully maintained during the year, and I call your attention to the report of Detective Sergeant Charles Pritchard, commanding the Patrol Boat "Gov. Morton," which gives in detail the work of the officers in his command. The Patrol Boat "Gov. Morton" was placed in commission in 1895, and the protection given to the property on the water front by the harbor police is greatly in excess of the expense of maintaining that branch of the police department.

We should have a new and larger patrol boat, and I trust that

your Honorable Board will place in your estimates for the coming fiscal year a sum sufficient to purchase or build a new boat for the harbor police.

Since its organization the Bicycle Squad of 20 men has proved to be one of the most available and useful branches of the Department, and during last summer it has done exceptionally good work. I invite your attention to the detailed statement in another part of this report showing the services performed by the Bicycle Squad.

We have in the Department 84 horses. Forty of the horses are used by the mounted policemen. The others are used on the patrol wagons and in the Electrical Department, and it is creditable to Sergeant George E. Whitcomb, Superintendent of Horses, and to the Patrol Wagon Drivers and Hostlers for the good condition of our animals. During the year 1901 it was not necessary to remove an animal from our stables for veterinary treatment.

Two of our horses were lost through an unavoidable accident. On the morning of December 14th, about 5 A. M., the patrol wagon of the Fourth Precinct, in charge of Patrolman Callahan and Driver White, returning from the Eighth Precinct to No. 4 station with a female prisoner, the team was driven into a live wire, both horses being electrocuted; there was a heavy storm and the electric lights were out. Driver White received a slight shock; it was very fortunate that he was not electrocuted.

For the work of the Bureau of Identification and Information, I refer you to the reports of Mr. George T. Jones and Mr. Joseph T. Whitwell.

This Bureau is becoming a very important factor in all police departments, and with our membership in the National Bureau of Identification, we keep in close touch with all the important police departments.

The interchange of photographs and measurements keeps us fully informed of the movements and location of all important crooks.

The vast amount of work done and performed by the Force will be found in the tables hereunto attached.

November 18th a case of smallpox was discovered on Loepere street in the Eighth Precinct and the Health Commissioner called upon the Police Department for a detail of officers for quarantine duty. It required three men to guard each house quarantined. The disease spread rapidly in the vicinity where it was first discovered, and later a few cases were found in the 4th, 5th, 10th, 11th and 12th precincts, increasing the demand for quarantine details, which beginning on November 19th with 9 men increased to 164. Fortunately the smallpox was of a very mild form, and in all the cases reported there were only two deaths.

As a precautionary measure Your Hon. Board ordered that all persons connected with the Department should be vaccinated by the Police Surgeon, which was done between the 4th and 28th of December.

A large number of patrolmen reported sick from the effects of vaccination, and were obliged to remain off duty from two to eight days as shown in detail by the report of the Surgeon. At one time we had off duty, sick and on quarantine, 175 men, more than one-third of our available force for patrol duty.

Except sickness caused from vaccination, the usual good health of the Department has been maintained.

In closing my report I desire to thank Your Honorable Board for the courtesies extended me.

Respectfully,

WM. S. BULL,
Superintendent.

Police Surgeon's Report.

BUFFALO, N. Y., January 3, 1902.

To the Honorable Board of Police Commissioners:

GENTLEMEN—I have the honor to submit my annual report as Surgeon to the Department of Police for the year ending December 31, 1901.

It is again my pleasure to report a continued healthful condition of the Force.

There have been but a few cases of protracted disabilities, and the greater portion of the less serious ones, so trivial as to be unnoticeable in making up the daily platoon assignments.

As ordered by your Honorable Board, I have vaccinated the Department, following a long standing custom of vaccinating the Force about every seven years.

As upon former occasions, the operation was attended with gratifying success, over eighty per cent. having "worked" to a greater or less degree. Of this number sixty reported sick from this cause and were unable to perform duty.

During the past twenty years the Department has been so thoroughly vaccinated, that there is no record of a single member of the Force having contracted the smallpox, although exposed to the infection more than some other classes of citizens.

The number of men who reported sick during the year was five hundred and seventy six (576), and the number of days lost, two thousand eight hundred and sixty five (2,865), or about three and a half (3½) days per man.

During the year there were three men superannuated on account of permanent ill health, all of whom had served a long time in the Department.

As in previous reports, the mortality of the Force has been small, but five deaths having occurred, three from acute and two from chronic diseases. They were as follows:

Sergeants, Michael Dillon, George W. Dill.

Patrolmen, John Doettrel, John F. Welch, Patrick J. O'Hare.

As previously recommended, I would again call your attention to the growing necessity of providing a gymnasium for the use of the men. This is an imperative adjunct to a Department numbering nearly eight hundred men. Such a school of gymnastics should be provided with baths, reading rooms, and other accessory details, where the men can have in addition to the benefits of physical training all the advantages which other well appointed places of recreation and social diversion provides. It would bring the men into closer social relations, and increase their capacity for physical endurance.

I desire to record my acknowledgment of many courtesies extended me by your Honorable Board, as well as others in authority, and the subordinate members of the Force.

Respectfully submitted,

JOSEPH FOWLER,
Surgeon of Police.

Patrol Boat.

DEPARTMENT OF POLICE, CITY OF BUFFALO,

January 1, 1902.

William S. Bull, Superintendent:

SIR—I have the honor to hand you herewith my report of the work performed and the material used by the Patrol Boat, "Gov. Morton," during the 229 days in which she was in commission during the season of 1901.

The average number of miles traveled per day was	70	miles.
The total number of miles traveled	16,030	"
Amount of coal consumed during season	140	tons.
Average amount consumed per day	1,222	lbs.
Average amount consumed per mile	17.46	"
Amount of lubricating oil consumed during season	120	gals.
Average amount used each day	.524	"
Average amount used per mile	.0074	"
Amount of waste used during season	50	lbs.
Amount of kerosene oil used during season	50	gals.
Average amount used per day	.218	"
Number of persons arrested during season	716	
Number of persons saved from drowning	2	
Number of bodies grappled for and recovered	24	
Number of hours consumed dragging for bodies	150	
Value of stolen property recovered	$1,020.50	
Value of lost property recovered	2,004.00	

The patrol boat attended all fires on the water front, and also extinguished several small fires during the season.

Respectfully,

CHARLES PRITCHARD,
Commander.

Bureau of Identification and Information.

William S. Bull, Superintendent:

SIR—I beg to submit herewith a report of the work done in my branch of the Department for the year ending December 31, 1901.

Number of males measured under Bertillon system	183
Number of females measured	39
	222

being the largest number heretofore measured in any year.

Our gallery of criminals is recognized as one of the best in the country, and we have through its aid been able to recognize a great many criminals who might otherwise have escaped identification.

There are at present 3,471 photographs in the gallery at Headquarters, an increase of 298 during the year.

This branch of the Department keeps at all times in close touch with similar departments in other cities, to the mutual benefit of all concerned.

I have received several hundred photographs from other places in return for photographs so furnished.

The station house galleries have proved to be a most valuable adjunct to the service, each of which contains 83 photographs of our local thieves, an increase of eleven over last year, so that each precinct now has a good collection for reference.

Respectfully submitted,

GEORGE T. JONES,
Clerk in Charge.

Photograph Department.

William S. Bull, Superintendent:

SIR—Herewith I submit a report of the operations of this branch of the Bureau of Identification and Information for the year ending December 31, 1901.

Total number of persons photographed	240
Number of photographs made from negatives of the above	3,300
Number of photographs copied from pictures received from other cities.	86
Number of photographs made from such copies	1,050
Number of duplicates made from negatives on hand	1,100
Number of photographs made for station house galleries	154
Total number of photographs made	5,604

Respectfully submitted,

JOSEPH T. WHITWELL,
Photographer.

Electrical Department.

William S. Bull, Superintendent:

SIR—Herewith I submit a report of the Electrical Department for the year ending December 31, 1901.

Put up new wires on poles and set up new signal boxes on the following street corners:

One at the corner of Delaware avenue and Amherst street.

One at the corner of Delaware avenue and Forest avenue.

One at the corner of Elmwood and Forest avenues.

One at N. Y. C. R. R. Belt Line Depot and Rosalia street.

One at the Erie R. R. Depot and Exchange street.

On account of the appropriation for underground cable being cut out last year, no new work could be done.

I would respectfully recommend that $4,500 be appropriated for lead covered cable, and $3,000 be appropriated for platinum contact yokes, cut-outs and locks for signal boxes.

Respectfully submitted,

THOMAS J. WELCH,
Superintendent Electrical Department.
